

Dear Sir or Madam,

Editor of ASEAN Journal of Chemical Engineering,

I would like to submit the manuscript entitled "Subcritical Water Extraction (SWE) for Extraction of Carbohydrate from Microalgae" for publication in ASEAN Journal of Chemical Engineering. This is a selected article from 4<sup>th</sup> International Conference on Chemical and Material Engineering (ICCME) Diponegoro University.

This manuscript describes the SWE of *Nannochloropsis sp.* to obtain carbohydrate. Here, we investigated the influence of temperature, extraction time, initial microalgae concentration to carbohydrate yield. We hope that this study can give benefit to understand better the optimum operating condition for SWE microalgae.

We declare that this manuscript is original, has not been published before and it is not currently being considered for publication elsewhere. As corresponding author, I confirm that the manuscript has been read and approved for submission by all the named authors.

With best regards,

Dr. Muhammad Mufti Azis

Department of Chemical Engineering  
Faculty of Engineering  
Gadjah Mada University  
Yogyakarta, Indonesia
