

Subject Index

abrasion	319	copper	304
abundance	224	coral reef fish	224
accretion	319	cultural ecology	266
acid mine water	29	dieback	295
additional income understorey	206	disaster	129
agroecosystem	241	distribution	34, 276
agroforestry	206	domestic waste	249
air pollutant dispersion	169	drainage	334
air quality	169	ecoregion	82
appropriate technology	102	ecosystem	374
aquatic	122	elimination	304
arboretum	111	environmentally impact	29
aromatic hydrocarbons	295	environment	394
asset	58	environment issue	327
<i>Avicennia marina</i>	304	environmental awareness education	136
<i>Bacillus subtilis</i>	49	environmental conservation	92
bank sampah (waste banks)	136	environmental health	136, 179
Binalatung	295	environmental pollution	365
biodiversity	206	erosion	66
biophysical factors	82	erosion control	259
black fruit	266	ethnoecology	266
blue economy	233	expected condition	276
breakpoint chlorination	156	farmer	58
Buleleng coastal area	381	fermentation	49
Buyat Bay	342	financial environment	1
cadmium	285	fish feed ingredients	49
calcium hypochlorite	156	fisheries industry tuna	233
carbon	34, 327	fisheries tourism	381
carbon loss	334	fisheries waste	233
cassava	241	floods	129
characteristic	122	forest	215
chicken feathers	49	forest area	327
cholinesterase activity	365	forest ecosystem	92
clean water	149	forest plantation	259
climate change	129	geoelectric	163
climbing plants	82	geographic information system	1
coal	29	geotechnical centrifuge	12
coastal region	349	global warming	327
coliform	156	granite	12
communities	224	greenhouse gasses	42
community	394	habitat	82
community engagement	390	heavy metals	20, 304
community forest	58, 276	hollow fiber modification membrane	149
community-based waste management	136	hospital	156
composition	42	household hazardous waste	179
compost	360	human hair	310
composting	42	impacts	179
conflict	276	innovation	241
contaminated well water	149	interface	163
contamination	285, 310	Kampar	195

Subject Index

Krueng Sabee	310	physical-chemical parameter	342
land suitability	111	phytoremediation	295
land use changes	92	pollutant	20, 304
landfill	42	pollutant migration	12
landform	189	pollution	374
landslide	1, 129	preference	215
landuse	189	problem	276
level of conformity	381	protection forest	394
Linamnutu	76	quality of drinking water	143
litter	304	Ratatotok Bay	342
livelihood natural resources	58	recession curve	189
local community	215	red pepper	66
local knowledge	102	reservoirs	20
lontar	76	rhyolite	12
mackerel tuna	233	risk	1
macrozoobenthos	20	risk factors	310
management	102, 276, 381, 394	river baseflow	189
mangrove	295, 319, 327, 349, 374	river ecosystem	189
<i>Manihot esculenta</i>	241	river water quality	249
marginal land	349	riverbanks	249
marine tourism	381	riverside communities	390
maximum concentration	169	runoff control	259
medicinal materials	206	Saguling	285
mercury	310	salinity	349
metal	285	scaling	195
mitigation	129	sea water intrusion	163
motivation	215	seagrass abundance	342
national park	215, 224	seawater intrusion	319
natural resources	266	sediment	20, 285, 349
nitrate	143, 360	seed survivorship	76
nitrite	143, 360	sensitivity	374
oilspill	374	settlement	122
open burning	42	shoreline	319
open pit mining	29	sink CO ₂	34
<i>Oreochromis sp.</i>	365	skipjack	233
organophosphate	365	small lakes	20
oxygen consumption rate	365	smallholders	241
p-aminobenzoat acid	143	small-scale gold mining	310
Papua	82	social and cultural of community	92
parameter and behavior	249	socio-population	1
participation	394	soil	360
participation of women	136	soil and water conservation	66
participatory prospective analysis	233	source CO ₂	34
particulate	169	spatial	122
peat	195	spring	102
physical environment	1	subsidence	334
		sulfurdioxide	169
