The abstract and keywords must be written in English. The length of each abstract is around 200-250 words, while the limit of key words is 3-5 words. The abstract, at the least, must contain the aim, methods, and result of the research.

### **Introduction**

The introduction should contain (sequentially) the general background and research question or hypothesis. If there is literature review, it can be included in this chapter. The study objective should be written at the end of the introduction.

### **Methods**

The research methods should elaborate on the method utilized in addressing the issues including the method of analysis. It should contain enough details allowing the reader to evaluate the appropriateness of methods as well as the reliability and validity of findings.

### **Results**

The author should explain the results of research (what was discovered) in detail.

### **Discussion**

The research result and discussion section contain results of the research finding and their ensuing discussions. The finding acquired from the results of the conducted research should be written with the supplementary support of adequate data. The research results and findings should be able to resolve or provide explanations to the question stated in the introduction.

### **Conclusion**

The concluding statement should contain summary and suggestion. The summary should exemplify the answers provided to the hypothesis and/or research objectives or acquired findings. The summary should not contain repetition of research results and discussions, and it should instead contain a summation of research results and findings as expected in the research objective

or hypothesis. The suggestions should present matters that will subsequently be conducted in relation to the research's ensuing concepts.
